

EMPOWER Personal Lifestyle Strategy Additional Voluntary Contributions

The EMPOWER Personal Lifestyle Strategy (EMPOWER PLS) is an innovative pension investment solution for members of Irish Life Additional Voluntary Contributions (AVC) schemes.

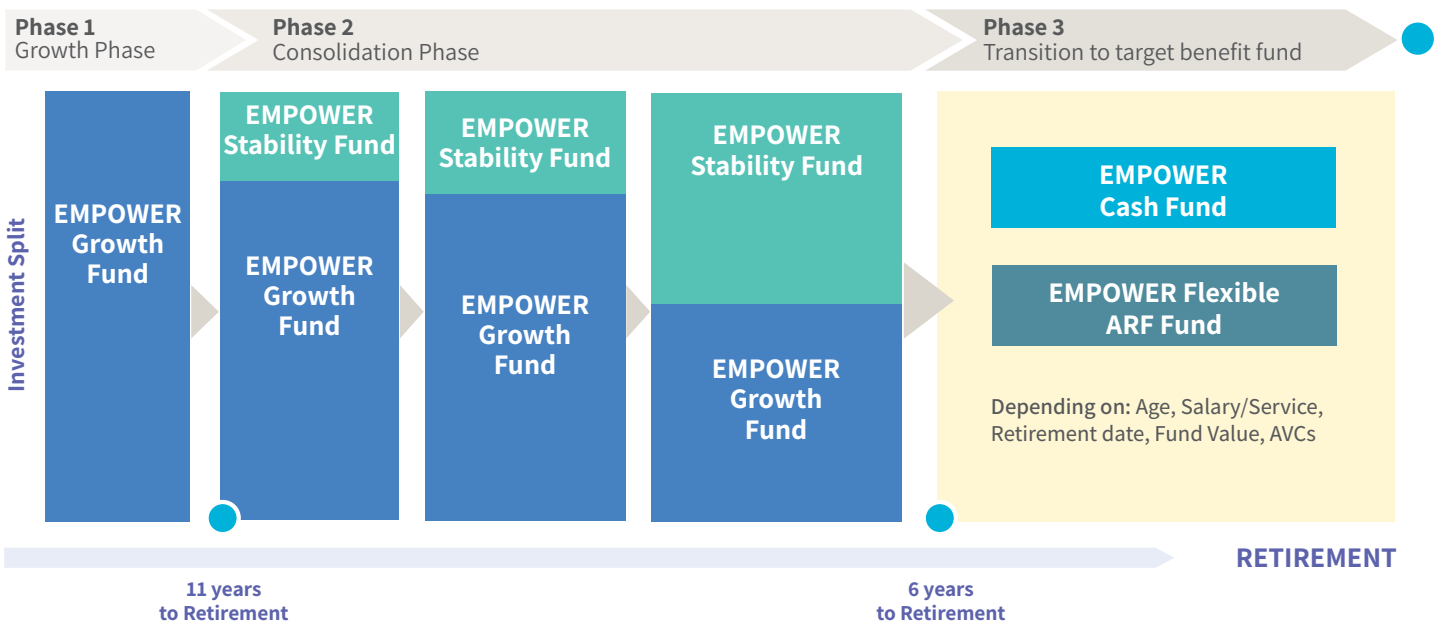

How does it work?

Investing your Additional Voluntary Contributions into EMPOWER PLS has two main benefits over the years of your pension savings:

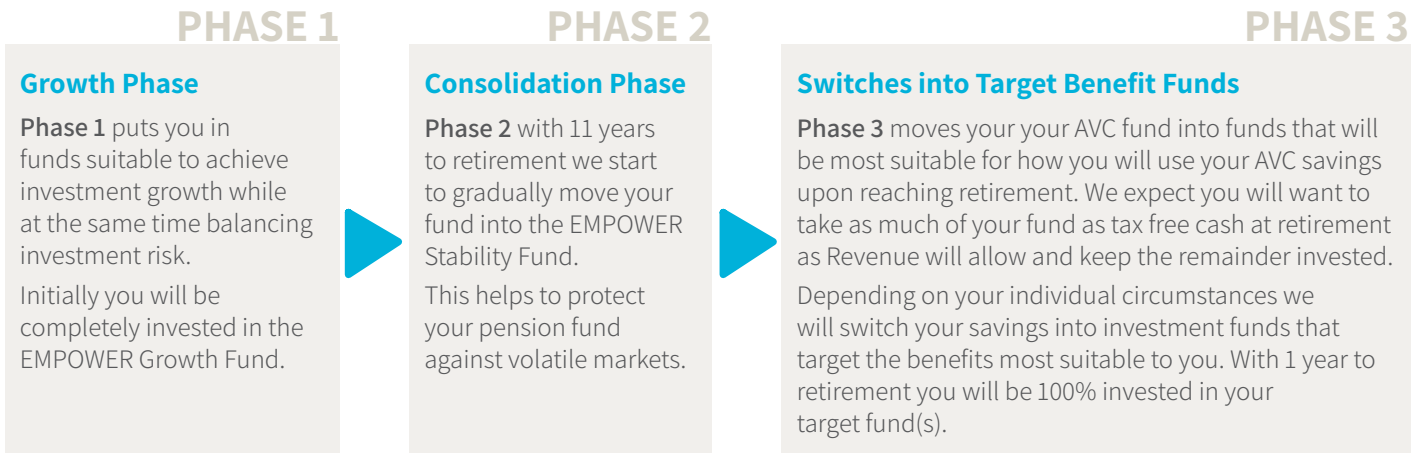

Managing Investment Risk
EMPOWER PLS helps protect your pension fund value against market fluctuations by switching you into lower risk funds as you get closer to your retirement date.

Personalised Fund Switches
EMPOWER PLS is different to other investment strategies because it adjusts to your own circumstances. It directs your investment into appropriate funds that best match the benefits that you are likely to take on your retirement.

EMPOWER PLS consists of three phases which span the years of your pension savings. It starts from the moment you join the strategy up to your retirement date.

Warning: The value of your investment may go down as well as up.

If you invest in EMPOWER PLS then all of your pension contributions must be in this strategy, you cannot select other funds and have the EMPOWER PLS features outlined here.

Which investment funds are used in EMPOWER PLS?

<p>The Cash Fund is a low risk fund which invests in bank deposits. It will be used for your likely lump sum benefit.</p>	<p>The EMPOWER Stability Fund is mainly invested in bonds, with some investment in cash, equities and alternative assets. It aims to help protect your pension fund against market movements.</p>	<p>The EMPOWER Flexible ARF Fund is mainly invested in bonds with some investment in cash, equities and alternative assets. It will be used for the part of the fund that may be transferred to an Approved Retirement Fund (ARF).</p>	<p>The EMPOWER Growth Fund is predominantly invested in international equities with some holdings in bonds, cash and property. This is a medium risk fund for balanced investors, which aims to have a moderate allocation to higher risk assets such as shares and property. The fund objective is to achieve returns managed within a range of volatility.</p>

The standard annual fund management charge for each fund used in EMPOWER PLS is 0.65% per year.

Irish Life are committed to ensuring EMPOWER PLS remains the optimum strategy for you. We therefore reserve the right to alter the mix of the assets and funds being used to underpin the strategy as required to ensure the strategy objectives are being met.

We will communicate any such changes to the scheme Trustees and Advisors where appropriate.

How does EMPOWER PLS work for an individual member?

If your retirement age is 65 you will be 100% invested in the Empower Growth Fund until you reach age 54. From age 54 we will switch a small percentage, about 10% each year, of your accumulated fund into the EMPOWER Stability Fund. The switches take place on a monthly basis. When you reach age 59 and you are 6 years away from retirement, 50% of your AVCs will be invested in the EMPOWER Growth Fund and 50% in the EMPOWER Stability Fund.

If your pension plan has a different retirement age then the switching will start 11 years from that retirement date. During the 6 years before your retirement, your fund is then directed into target funds to match your likely retirement benefits.

	Years to Retirement	EMPOWER Growth Fund	EMPOWER Stability Fund	BENEFIT TARGET FUND

Phase 3 - Switches into Target Benefit Funds

Phase 3 is the phase when EMPOWER PLS really matches your personal circumstances! EMPOWER PLS recognises that everyone is unique and will retire on a different salary, service length and fund size. Based on your personal details submitted to us, over the last six years prior to your retirement EMPOWER PLS will switch your pension savings into one or two different funds that best fit how you are likely to take your benefits at retirement.

When our sample member John comes to retirement, he could have a number of different options how to take his AVC benefits. EMPOWER PLS will switch him into different funds that are best suited to his retirement options.
